TALKING POINTS FOR PHONE CALLS

- As your constituent, I am contacting you today to ask you to support commonsense legislation for skill games
 - The recent Pennsylvania Supreme Court decision has created significant uncertainty for thousands of small businesses and organizations like mine
 - While we respect the Court’s decision, it is important to recognize that the Court also made clear that setting public policy on this issue is the responsibility of the Pennsylvania General Assembly.
 - Lawmakers now have the opportunity to provide a commonsense solution that protects small businesses while establishing reasonable oversight and generating tax revenue for the commonwealth.
 - I respectfully ask you to support bipartisan, bicameral legislation, including Senate Bill 1079 and House Bill 2213, to regulate skill games and support small businesses and organizations.

Lawmakers must act now! The recent PA Supreme Court decision leaves too much uncertainty for small businesses that rely on skill games for critical income. Lawmakers can protect small businesses by supporting SB 1079 and HB 2213 – commonsense legislation for skill games.

SAMPLE LETTER/EMAIL TO LEGISLATORS

Dear Senator/Representative,

As a small business/fraternal organization serving our community, we are writing to urge you to support legislation that fairly regulates and taxes Pennsylvania Skill games.

The recent Pennsylvania Supreme Court decision has created significant uncertainty for thousands of small businesses and community organizations like ours that have relied on skill game revenue to help pay employees, cover rising operating costs, maintain our facilities, and continue serving our customers and members.

While we respect the Court's decision, it is important to recognize that the Court also made clear that setting public policy on this issue is the responsibility of the Pennsylvania General Assembly. Lawmakers now have the opportunity to provide a commonsense solution that protects small businesses while establishing reasonable oversight and generating meaningful tax revenue for the Commonwealth.

For years, Pennsylvania Skill games were found by multiple lower courts—including a unanimous Commonwealth Court decision—to be legal games of skill under existing law. The current uncertainty should not result in the loss of a vital source of supplemental income for more than 10,000 small businesses, veterans' organizations, fraternal clubs, and nonprofit groups across Pennsylvania.

We respectfully ask you to support bipartisan, bicameral legislation, including Senate Bill 1079 and House Bill 2213, which provide a balanced approach by establishing clear rules, creating a fair tax structure, and allowing responsible businesses like ours to continue benefiting from skill games.

Our business/organization is part of the fabric of this community. The revenue generated by skill games helps us keep our doors open, support local jobs, maintain our operations, and continue giving back to the people we serve.

Please stand with Pennsylvania's small businesses, veterans' organizations, and community groups by supporting fair regulation and taxation of skill games. We urge you to act quickly to provide certainty for thousands of employers and organizations that depend on this important source of revenue.

Thank you for your consideration and your continued service to our community.

Sincerely,

[Business/Organization Name]

[Owner/Manager/Officer Name]
